

- ⑨ Convert the southwest area of the reserve into a new community active recreation hub; new facilities and infrastructure to be determined
- ⑩ Install seating, shelters and drinking fountains throughout the community active recreation hub space
- ⑪ Remove the playspace following the upgrade and expansion of the playspace to the north
- ⑫ Re-surface the CFA training track and continue to use it for temporary car parking as required during football matches
- ⑬ New hardstand to store the CFA Ladder
- ⑭ Line mark a new Marshall Track

Access and Movement

- ⑮ Formalise the layout of the gravel car park to improve parking efficiencies
- ⑯ Review the alignment of the internal road and seal the surface
- ⑰ Retain gravel surface and informal car parking
- ⑱ New shared path to connect Hannah Watts Park and the Melton Botanic Garden; the small section of path inside the reserve to be constructed to a standard able to withstand vehicle parking on match days
- ⑲ New gateway treatment to support increased public use of the reserve
- ⑳ Increase the walkability of the reserve by introducing new path connections to link the sub-precincts throughout the reserve

Legend Sporting Facilities

- ① Install 2 new competition compliant netball courts, player shelters and sports lighting (200 lux)
- ② Relocate the netball change room building
- ③ Consider the feasibility of increasing the oval length as part of a larger project to reconstruct the playing surface
- ④ Install additional bench seating around the oval
- ⑤ Replace the current cricket practice nets with a new 4 lane fully enclosed facility and extend the adjacent cricket store

Community Facilities

- ⑥ Remove the public toilet block and relocate with a new facility in a location to be determined during the Hannah Watts Park master plan review
- ⑦ Remove the two community hardcourts and re-purpose as a new shaded open space area
- ⑧ Re-purpose the court into a multipurpose activation space (netball and pickleball)

Open Space/ Environment/ Landscape Character

- ㉑ Install new spectator shelter when the existing shelter outside the southwest of the oval reaches end of life
- ㉒ Strengthen the reserve boundary planting
- ㉓ Investigate the provision of a secondary reserve entrance / exit
- Install wayfinding and directional signage throughout the reserve
